

ORDER NO: LASERC/MKTR/012

SEPTEMBER 2026 SUPPLEMENTARY TARIFF ORDER FOR EKO POWER LIMITED

TITLE

1. This regulatory instrument shall be cited as the **September 2026 Supplementary Tariff Order** for Eko Power Limited (EPL).

COMMENCEMENT AND TERMINATION

2. This Order shall take effect from **1st September 2026**, and it shall cease to be effective on the issuance of a new tariff review Order for EPL by the Lagos State Electricity Regulatory Commission ("LASERC" or "The Commission").

CONTEXT

3. In line with extant practices in the sector, LASERC has decided to undertake monthly adjustment of tariffs to reflect changes in pass-through macroeconomic indices not within the control of the EPL.

OBJECTIVE

4. This Supplementary Order seeks to reflect the changes in the pass-through indices outside the control of EPL, including inflation rates, ₦/US\$ exchange rate, available generation capacity and gas to power price for the revision of the Cost-Reflective Tariffs ("CRT") for EPL effective **1 September 2026**.

BASIS FOR THE REVIEW

5. Minor Review Indices

The underlisted indices with potential impact on electricity rates were considered to revise EPL's revenue requirements and associated tariffs:

- a. **Exchange Rate:** The Naira to US Dollar exchange rate of **₦1,369.48/US\$1** has been adopted for September 2026; this has been determined by adding a 1% transaction cost to the average foreign exchange rate of **₦1,355.92/US\$1** during the period of **1st-26th** August 2026 as obtained from the website of the Central Bank of Nigeria ("CBN") in line with the MYTO methodology.
- b. **Nigerian Inflation Rate:** The Nigerian inflation rate of **15.43%** for July 2026, published by the National Bureau of Statistics ("NBS"), is applied to revise the Nigerian inflation rate projection for 2026.
- c. **US Inflation Rate:** Based on the data published by the United States Bureau of Labour Statistics (<http://www.bls.gov>), the US inflation rate of **3.40%** for July 2026 is applied to revise the US Inflation rate projection for 2026.
- d. **Wholesale Gas to Power Prices:** The review adopts the underlisted benchmarks established by the Nigerian Midstream and Downstream Petroleum Regulatory Authority ("NMDPRA") in line with the Petroleum Industry Act ("PIA") 2021:

Signature
George

- i. The gas-to-power price of **US\$2.18/MMBTU** based on the revised benchmark price by NMDPRA in May 2026 in compliance with Section 167 of the PIA.
- ii. An interim Shrinkage Factor ("SF") of **3%** as established by NMDPRA pending the deployment of a model that will automatically set the SF on the gas network.
- iii. A wholesale levy of **0.5%** on the cost of gas earmarked for the Midstream and Downstream Gas Infrastructure Fund ("MDGIF") as established by NMDPRA in compliance with Section 52(7) of the PIA.
- iv. The contracted gas supply and transportation prices outside Domestic Gas Delivery Obligation quantities are based on effective Gas Sale Agreements ("GSAs") approved by the Commission.
- v. Benchmark Gas Transportation tariff of **US\$1.13/MMBTU** based on the revised benchmark price by NMDPRA in January 2026.

6. Carrying Forward of Over/Under Recovery of 2025 Revenue

Pursuant to the retroactive review of the 2025 revenue requirement for EPL in April 2026 following the availability of the final market data and actual macroeconomic indices estimate for 2025, the Commission approved the carrying forward of the over or under-recovery of 2025 revenue, effective in April 2026, for final recovery over a period of 9 months (May – December 2026).

7. Summary of Tariff Assumptions and Results

Table 1 below summarises the tariff review indices adopted in this Order. **Table**

- 1: Key Tariff Review Indices/Assumptions and Results

Parameter	Unit	Aug 2026	Sep 2026
Nigerian Inflation	%	15.91%	15.43%
US Inflation	%	3.50%	3.40%
Exchange Rate	₦/\$	1,389.05	1,369.48
Gas Supply and Transportation Cost	\$/MMBTU	3.39	3.39
Transmission Loss Factor	%	7.00%	7.00%
Generation Cost	%	101.77	100.30
Transmission & Admin Cost and TIF	₦/kWh	13.64	13.61
Weighted Average Cost Reflective Tariff	₦/kWh	177.74	175.24

8. Approved End-User Tariffs Effective from 1st September 2026

LASERC has considered and approved the tariffs in Table 2 below for EPL, effective **1 September 2026**. The approved tariffs shall remain in force subject to monthly adjustments of pass-through indices, including inflation rates, NGN/US\$ exchange rates, wholesale market administration and associated costs (e.g., transmission), and gas-to-power prices.

Table 2: Approved Allowed Tariffs (₦/kWh) for EPL

Tariff Class	September 2026

D - MD1	43.27

Tariff Class	September 2026
D - MD2	43.27
E - Non-MD	32.44
E - MD1	43.27
E - MD2	43.27

9. Service Delivery Commitments

EPL shall be held accountable for service deliveries per commitments under its Service-Based Tariff proposals that seek to align end-user tariffs in proportion to the service level enjoyed by customer clusters as measured in average hours of supply per day over one month. Details of the service level commitments made by EPL to customers in various tariff Bands for **September 2026** are shown in Appendices 2 - 4.

10. Monitoring and Evaluation of Compliance with Service Commitment

- The Commission shall leverage technology to directly obtain data on the hours of supply on each Band A feeder from the head-end system of EPL for near real-time monitoring of service.
- EPL shall maintain a rapid response team to ensure effective service delivery on the committed minimum hours of supply to each service Band, commencing with Band A feeders. The team shall continue to ensure timely response to customers' complaints, fault clearing, and alignment with TCN regional teams for effective load management and optimised dispatch to respective feeders. EPL shall maintain the dedicated email addresses and contact numbers of the service rapid response team for each customer cluster/business unit on its website and continue to circulate this information to customers via bulk SMS and social media handles.
- EPL is obligated to publish daily on its website a rolling 7-day average daily hours of supply on each Band A feeder **no later than 10:00 am of the next day.**
- Where EPL fails to deliver on the committed level of service on a Band A feeder for two consecutive days, EPL shall, on the next day by 10.00 am, publish on its website an explanation of the reasons for the failure and update the affected customers on the timeline for restoration of service to the committed service level.
- Where EPL fails to meet the committed service level to a Band A feeder for seven (7) consecutive days, the feeder shall be automatically downgraded to the recorded level of supply pursuant to the **Order on Migration of Customers and Compensation for Service Failure under Service-Based Tariff Framework.**
- EPL is mandated to continuously ensure upward migration of customers from the lower service Bands to Band A service level in line with the target on improvement in quality of service.

11. Service Band Performance, Migration/Downgrade and Compensation

In keeping with regulatory consistency to protect customers while retaining predictability for operators, the Commission has resolved to adopt the provisions of the existing market instruments related to the evaluation of service band performance, band migration, and customer compensation for service under-delivery. Accordingly, LASERC hereby orders as follows:

- EPL shall make appropriate compensation to the affected customers in Band A feeders listed in Appendix 2 for failure to deliver up to 20 hours of average supply but more than 18 hours of average supply in line with the provisions of the Order on feeder migration, while the feeders shall remain as Band A.
- EPL has delivered up to 20 hours of average supply from 1 - 21 August 2026 on

the feeders in Appendix 3. Thus, EPL's application to upgrade the feeders to Band A effective from the 1st of September 2026 is hereby approved.

12. Effective Date

This Supplementary Order shall be effective from 1st September 2026.

Dated this 31st day of August 2026

Temitope George
Chief Executive Officer

Olakunle Falola
Executive Member
Licensing and Economic Regulation

Appendix - 1: EPL's Customer Classifications

Service Bands	Tariff Class	Description
A (Minimum of 20hrs/day)	A - Non-MD	Customers with single or three-phase connections located within Band-A Service Level Feeders
	A - MD 1	Customers with LV Maximum Demand connection located within Band-A Service Level Feeders
	A - MD 2	Customers with MV/HV Maximum Demand (11/33kV) connection located within Band - A Service Level Feeders
B (Minimum of 16hrs/day)	B - Non-MD	Customers with single or three-phase connections located within Band-B Service Level Feeders
	B - MD 1	Customers with LV Maximum Demand connection located within Band-B Service Level Feeders
	B - MD 2	Customers with MV/HV Maximum Demand (11/33kV) connection located within Band - B Service Level Feeders
C (Minimum of 12hrs/day)	C - Non-MD	Customers with single or three-phase connections located within Band-C Service Level Feeders
	C - MD 1	Customers with LV Maximum Demand connection located within Band-C Service Level Feeders
	C - MD 2	Customers with MV/HV Maximum Demand (11/33kV) connection located within Band - C Service Level Feeders
D (Minimum of 8hrs/day)	D - Non-MD	Customers with single or three-phase connections located within Band-D Service Level Feeders
	D - MD 1	Customers with LV Maximum Demand connection located within Band-D Service Level Feeders
	D - MD 2	Customers with MV/HV Maximum Demand (11/33kV) connection located within Band - D Service Level Feeders
E (Minimum of 4hrs/day)	E - Non-MD	Customers with single or three-phase connections located within Band-E Service Level Feeders
	E - MD 1	Customers with LV Maximum Demand connection located within Band-E Service Level Feeders
	E - MD 2	Customers with MV/HV Maximum Demand (11/33kV) connection located within Band - E Service Level Feeders
